Liquid
Concentrate

2oz. / 60 ml

Dr. Dale's Immune Support: Zinc, selenium, sulfur, and silver play important roles supporting our immune system. The onset of a cold or flu may be indicative of a temporary deficiency in one or more of these minerals. A strong immune system is also important in dealing with allergies and asthma. This formulation provides you with an optimal blend of essential elements necessary for a healthy immune system.*

Take the guesswork out of supplements: Dr. Dale's uses a proprietary process that transforms pure mineral crystals into a fully hydrated, 100% bioavailable liquid ionic supplement • taste free • gentle on the stomach • made in the USA and quality tested to assure safety and potency • No additives or sweeteners.

The Dr. Dale's difference: Large doses are used in solid supplements because most of the mineral is not absorbed. Dr. Dale's minerals are 100% bioavailable. It is not necessary to take large doses in order to be effective.

Suggested Use: 30 drops (2ml) in 8 oz. of juice or water daily or as needed up to 5 times per day.
